1. What do bumblebees gather?
2. Where is the only place bees are not found?.....
3. What fraction of human food depends on bee pollination?.....
4. Where do bees store their honey?
5. How long does a colony last?
.....
6. What is the name given to the place the bumblebees live?
.....
7. How many legs do bumblebees have?
8. How many common bumblebee species are there?
.....

Funble Bee Facts!

A bumblebee pollinated **every tomato** you eat. No bees = no tomatoes = no baked beans or tomato ketchup!

Bumblebees have **stinky feet**. If a flower smells a bit cheesy, the bee knows that there wont be any nectar left!
